

April 25 Webinar:

Addressing the shortage of pediatric subspecialty care practitioners in California

Thank you once again for registering for our webinar on addressing pediatric subspecialty care access in California!

In conjunction with a [new publication](#) on the shortage of pediatric subspecialty care practitioners in California, the [UCLA Center for Health Policy Research](#) and the [Lucile Packard Foundation for Children's Health](#) are pleased to host an [essential webinar](#) on innovative new strategies to address this challenge. Webinar panelists will discuss the current state of pediatric subspecialty care access, outline specific recommendations for change, and take questions directly from webinar participants.

The webinar is conducted using Blackboard Collaborate™, accessible on PC, Mac, and now even iPad and iPhone. Your computer needs speakers or a headset to hear the audio portion of the webinar. Questions can be submitted via text during the webinar.

Click [HERE](#) to join the webinar.

To check your computer's compatibility, click [HERE](#). For the webinar, please allow a few minutes prior to start time for Blackboard Collaborate™ to download, and then to test your audio once you've joined the room. If you encounter a firewall issue that prevents access, please contact your IT department.

IMPORTANT: it is *strongly* recommended that you upgrade to the most current version of Java available to protect your system from critical vulnerabilities. Mac users may not be able to use Blackboard Collaborate without this update.

* To update Windows computers, click [HERE](#) * To update Mac computers, click [HERE](#)

If you have any questions, please contact the Mark Ramirez at 310-794-2684
